

ENG 4000 Weekly Meeting Minutes

Every week, this document should be presented to the supervisor, as this will be the basis for grading.

Project Name	Sat Ops MQ
Date & Time of Meeting	Supervisor Meeting: 3/14/24, 3:00 - 4:00 pm CSA Meeting: 3/15/24, 1:30 - 2:30 pm Stand-up Meeting: 9:00 - 9:30 pm, 3/17/24

Attendees			
#	Name	Student ID	Username (email)
1	Youssef Hany	216885766	youssef8@my.yorku.ca
2	Rafael Dolores	216142069	rafd47@my.yorku.ca
3	James Le	217270943	jamesmql@my.yorku.ca
4	Walid Al Dari	218375162	walidald@my.yorku.ca
5	Ruth Bezabeh	216171795	ruttkas@my.yorku.ca
6	Stanley Ihesiulo	216985236	ihesiulo@my.yorku.ca
7	Hashir Jamil	217452954	hashirj@my.yorku.ca

Decision Made / Agenda / Objectives / Plan for the Coming Week
--

Supervisor Meeting:

- Short meeting not much to talk about other than reflecting on the year so far and how it was.

CSA Meeting:

- Discussed generating new test cases.

Stand-up Meeting:

- Ended sprint -> had to move E2E test tasks from sprint 1.09 to 1.10
- Report is worth 35%, need to meet Prof. Newland to further discuss project management user story portion of report
- Generate more test data -> ruth has done some and will continue to do more -> youssef has also generated some random orders
- Generate edge case tests
 - Edge case with bad intent (i.e. someone trying to overload)
 - Edge case with storage new full (use state checkpoint)
 - Edge case with power near empty (use state checkpoint)
 - Very high number of repeats such that the order spans many months
- Youssef FOV code still in progress but almost done
 - Will test it more this week
- Youssef and Hashir will work on video to have it ready well in advance of april 3rd
- Reimbursements done → can potentially do SatOpsMQ t shirts

Team Responsibilities for the Coming Week

#	Name	Responsibility
1	Youssef Hany	
2	Rafael Dolores	
3	James Le	
4	Walid Al Dari	Finalize front end code for the health dashboard page
5	Ruth Bezabeh	Generate more test data
6	Stanley Ihesiulo	Finishing up handling satellite state, and ensuring priorities are handled properly in the schedule.
7	Hashir Jamil	Health dashboard backend data endpoints & Start final report good copy

Progress Report on Last Week's Activities

#	Name	% Completed	Comment (provide the reasoning only if 100% is not completed)
1	Youssef Hany		
2	Stanley Ihesiulo		Finished endpoints for receiving maintenance/image orders, and kicking up the scheduler system. The scheduler system has been implemented fully, and I am now working on the refinements and fixes recommended by the CSA
3	Hashir Jamil		

4	Rafael Dolores		Finish tweak on Algorithm for asset balancing
5	Walid AlDari		Met with Hash to establish possible design and sub tasks for health dashboard page stats.
6	James Le		
7	Ruth Bezabeh		created script to generate test data
